Arts Destination South Molton

Many of you may not have heard much about Arts Destination South Molton (ADSM). We are a small charity based in South Molton which, after a couple of years of dormancy, is now getting back into action. We are raising funds to support creative projects suggested by people living and working in the area, helping to bring their ideas to life.

Our first major project was **Kim's Art Club**, run by the wonderful Kim Noseda for young people aged 11–16. It has been running successfully for ten months, growing from 20 students to well over 60 on its records. We have secured funding to keep the club going for the next 12 months and hope the children will be able to create a large mural in the town next year.

Building on this success, we have secured funding to support the **South Molton Art Trail**, helping local artists and makers raise their profile by opening their studios and workshops to the public. Visitors can discover where work is made, meet the makers and explore the fascinating creativity on our doorstep. Whether you open your own studio door or step through someone else's, we hope you have a thoroughly enjoyable and inspiring weekend.

We would love to hear from other creative people with ideas for projects that might benefit from funding. We cannot promise to support every proposal, but we are keen to discuss what might be possible.

We also want to welcome more creative people as ADSM trustees. Fresh ideas, skills and enthusiasm would help us develop the charity and support even more creative activity in and around South Molton. If you have a project in mind or would like to get more involved, please get in touch. We want to hear from you!

We would like to hear what you thought of the **South Molton Art Trail** either as a **visitor** or **exhibitor**. What worked well, what could be improved, and what would you like to see next time?
Your feedback will help us make future events even better.

Please send your thoughts to the email address below.
